

1960 - Born in Kriva, Palanka , Macedonia ; lives and works in Milan , Italy

Robert Gligorov was born in Macedonia , lives and works in Milan , Italy . He is primarily known for his photographs, which have been widely exhibited in Europe . Gligorov is attuned to the idea of performance and high-impact images; his photographs are always arresting, sometimes shocking, using unexpected combinations of human, animal and vegetable life to explore sexuality and identity. Gligorov also works with drawing , painting , video , sculpture and installation . His philosophy is to operate in the areas where society breaks down, sweeping away hypocrisies and revealing what is not said and is not made clear. Over these years Gligorov has taught us how to get inside the mechanisms of contemporaneity always stimulating the attention of those who live in an enormous set called the World. He had exhibitions all around the world , his works were featured in Melbourne , Valencia and Venice Biennial and are part of various public and private collections worldwide.
